Spray Your Fruit with PYROX

Pyrox protects your orchard against the ravages of both insects and fungus, and makes it possible for you to grow marketable fruit and lots of it.

There is nothing complicated about its use; it is an insecticide and fungicide combined, and when applied, rapidly dries, forming a coating unaffected by even the heaviest rains.

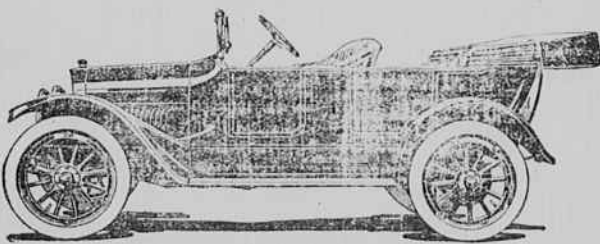

Ask any orchardist what he thinks of Pyrox; then call and get a copy of our new and interesting booklet. We sell Pyrox because we know what it will do—any quantity you want, in small crocks, kegs or barrels.

Remember—use Pyrox for Fruit and Potatoes.

Take a Look at This 1914 REO

Have you seen a car at any price that surpasses it in beauty?

We know of REO cars that run the past year without any cost of repairs except tire upkeep. This is because they are built right. We know of other cars costing a great deal more and sold last Spring that had to have a set of wheels. This is caused by too much weight for the wheels to carry.

Before you purchase a car drop us a card and let us give you prices and literature on the REO.

THREE BABIES BURNED.

Parents Left Children at Home and Are Burned Up.

Pocahontas, June 6.—Three children of Wiley Belcher and wife, ranging in ages from one year to five, were burned to cinders near Simmons, W. Va., early today, according to a message received here. The children were left at home alone when their mother visited a neighbor a short way from home.

Mr. Belcher was at work in the mines at the time. Shortly after the mother had left the children, the house caught fire and was destroyed and the children cremated before people who saw the conflagration from a distance could reach the scene.

The parents of the children are almost crazed with grief.

Rumor has it that a heavy log he was loading last Saturday, rolled over on him, mashing his legs so badly as to necessitate amputation. Dr. Peirce, Agriculturist.

I have enjoyed the work, and shall feel deep interest in the exhibits. Dr. Peirce is an enthusiastic man, and the people of the county should give him hearty co-operation in his efforts to promote "better farming," etc.

The Last Call.

To Pastors and Sunday School Officers: Gentlemen:—The annual meeting of the county S. S. Association meets here next Wednesday, as you know. I take this means of stating that this is "the last call" which can be made through the papers here. Will your school be represented? A number of men have worked hard and done about their best to make the coming meeting a success. It will be a success if the schools are represented. If no interest is taken your church and school will be loser. Not too late yet to have delegates appointed. Bring or send report to the convention. Promise is now for a large meeting.

C. R. BROWN, President.

NOTICE.
